Acquabuddy 2L smart water fountain for pets

SKU: TEPETWIWATER

Fresh water, always monitored for your pet’s daily care

FRESH WATER AT ALL TIMES WITH HI-FEEDO APP CONTROL

The **Acquabuddy smart water fountain** has a maximum capacity of **2 litres** and keeps the water continuously circulating, helping dogs and cats always have fresh water available. Connect the fountain to a power socket using the cable included in the package and briefly press the button located below the LED to switch it on.

The wireless connection lets you use the fountain with the **Hi-Feedo app**, compatible with **iOS 12 or later and Android 7 or later**. Once the fountain is connected to the app, you will receive a notification when the water level is low and when it is time to replace the filter, making everyday management easier.

MULTI-STAGE FILTRATION AND ULTRA-QUIET WATER FLOW

The **multi-stage filtration system** is designed to trap small impurities, helping provide high-quality water for your pet. The water flow operates at a noise level below **23 dB**, making it ideal even at night or in areas dedicated to rest. The fountain is compatible with **universal filters measuring 12 cm in diameter and 4.5 cm in height**. Weekly cleaning of the fountain and changing the water every 2–3 days are recommended.

PRACTICAL DESIGN AND SMART FEATURES

The rubber feet on the bottom provide greater stability and help reduce movement while your pet is drinking. The **water fountain for dogs and cats** measures **190 x 160 mm**, making it easy to place around the home without taking up too much space while still providing a generous water supply for your dog or cat.

With the Hi-Feedo app, you can create the ideal routine for caring for your pet: schedule water dispensing at specific times of the day or under specific conditions, for example when the temperature in your city rises above a set threshold. Alternatively, choose the smart dispensing mode to start 5-minute cycles.

SET UP A COMPLETE ROUTINE

Create a complete schedule for your four-legged friend's daily routine using the Hi-Feedo app. The app lets you add multiple products, creating a complete smart ecosystem. For example, by adding both the water fountain and one of the Hi-Feedo smart feeders, you can schedule water and dry food dispensing at the same time.

WHAT SETS IT APART

- 2-litre capacity
- Control via the Hi-Feedo app

- Low water level alert
- Filter replacement reminder
- Quiet water flow below 23 dB
- Universal compatibility with filters measuring 12 cm in diameter and 4.5 cm in height
- Stable anti-tip design
- Impurity filtration and continuous water circulation
- Dimensions: 190 x 160 mm

WHAT'S IN THE BOX

- 1 Acquabuddy smart water fountain
- 1 power cable
- 1 user manual
